

M.D. STETSON

FIBERMASTER DRY FOAM SHAMPOO CRYSTALIZING CARPET AND UPHOLSTERY SHAMPOO

A concentrated, crystalizing dry foam shampoo for use with rotary, foam type and non-electric applicators. Effective on both carpets and upholstery. Safe for use on all fibers and colors. No rinse necessary.

DIRECTIONS FOR USE

Use Dilutions:

Usage	Rate	Dry Foam/Water
Normal Soil	1:32	4 ounces/gallon water
Heavy Soil	1:12-16	8 ounces/gallon water
Upholstery	1:20	6 ounces/gallon water

- Remove furniture and dry vacuum carpet or upholstery.
- Spot clean oily or greasy spots with appropriate spot remover.

Note: Fibermaster Dry Foam is for use on color-fast fabrics only. To test for color-fastness, apply diluted shampoo on hidden area, then wipe with white cloth. If no color comes off, clean entire piece.

- Apply solution with a slow pass of each area. Slightly overlap each pass to ensure coverage, building only enough suds to guide you. A second pass may be used in heavily soiled areas. When using a rotary machine, double-scrub extremely soiled areas by releasing shampoo on the first pass, then going over area without releasing shampoo.
- Once the carpet is dry, the shampoo will crystalize. Simply dry vacuum the carpet to complete the process.
- Optional: rinse extract the carpet for deep restorative cleaning.
- Drain out solution tank and rinse. Never allow solution to remain in tank overnight.

Normal Drying Time

Foam type applications: Dries in approximately one hour.

Rotary and non-electric applications: Dries in several hours, depending on carpet thickness and humidity.

NOTE: If furniture must be replaced before carpet is dry, place wax paper or foil squares under legs.

SPECIFICATIONS

Appearance	Clear straw-colored liquid
Fragrance	Floral
pH	9-10
Specific gravity	0.99-1.01
Storage stability	1 year

Refer to the Safety Data Sheet (SDS) for detailed safety, health and environmental information.

PACKAGING:

Available in 1 gallon plastic containers.
