

M.D. STETSON

MAXX PROCESS DETERGENT FOR INDUSTRIAL USE ONLY

MAXX Process Detergent is an extra strength, biodegradable, concentrated, liquid heavy-duty degreaser. MAXX Process Detergent contains no petroleum solvents and is especially effective for use in hot-tank, dip and ultrasonic wash systems. It is excellent for ferrous and non-ferrous metals, including aluminum.

Recommended use dilutions: 5-10% in water. At proper use dilution, MAXX Process Detergent is non-corrosive to most metals, including steel, aluminum and titanium.

DIRECTIONS FOR USE:

Dilutions vary from 1/2 ounce - 6 ounces depending on the materials being cleaned and soil levels.

METHOD OF APPLICATION:

- Hot tanks - aluminum safe
- Steam cleaning
- Pressure sprayers
- Ultrasonic cleaning

Refer to the Safety Data Sheet (SDS) for detailed safety, health and environmental information.

SPECIFICATIONS:

Appearance	Water white liquid
Odor	Mild, no fragrance added
pH	12.0-13.0
Specific gravity	1.04-1.06
Viscosity	Like water
Biodegradable	Yes
Phosphate-Free	Yes
Foam Generation	Low
Total Active	11.09%

PACKAGING:

All packaging sizes available through special order only.
