

M.D. STETSON

NDC NON DETERGENT CLEANER

NDC is a non-detergent cleaner and restorer formulated primarily for flooring and carpets, but can be used on most hard and soft surfaces. NDC will remove previously applied detergent residues and new soils, preventing the detergent residue from attracting more soil to these surfaces.

DIRECTIONS FOR USE:

Hard Surface Flooring:

- For heavy-duty cleaning, dilute at 12 ounces per gallon of cold water. Apply to floors with a mop or autoscrubber. Allow a dwell time of 5 - 10 minutes, depending on level of soil and residue. Scrub floor thoroughly to loosen dirt and deposits. Vacuum slurry then rinse.
- For general cleaning, dilute at 1 to 4 ounces per gallon of cold water. Mop or autoscrub to clean.

Carpets and Upholstery:

- For carpet cleaning, dilute at 12 ounces per gallon of cold water. Can be used with all types of extractors. Follow directions of extractor. For use as a pre-spray, apply to carpet without saturating. Scrub stain. Absorb excess solution with clean cloth.
- For upholstery, dilute at 12 ounces per gallon of cold water. Apply to fabric being careful not to saturate. Rub lightly with microfiber cloth or soft brush. Wipe dry with a clean cloth.

Note: Not recommended for hides (leather, suede) or delicate natural fibers (silk, wool). Spot test for colorfastness.

Spray and Wipe Cleaning:

- Dilute at 12 ounces per gallon of cold water. Spray on soil. Wipe off with clean cloth.

SPECIFICATIONS:

pH as supplied	11-12
Specific gravity	1.05-1.15
Color	clear liquid
Fragrance	none added
Shelf life	2 years unopened

Refer to the Safety Data Sheet (SDS) for detailed safety, health and environmental information.

PACKAGING:

Available in 1 gallon containers.
