

M.D. STETSON

OXY-D CONCENTRATE

Oxy-d combines highly efficient surfactants with one of the most powerful cleaning agents, hydrogen peroxide, and the strongest, natural solvent, d-Limonene. The result is a highly effective, non-hazardous, versatile cleaner. Use on almost any type of soil or stain, including oil, tar, gum, and magic marker.

Use as a carpet spot remover and pre-spray for extraction cleaning. Restores the luster to ceramic tile and completely cleans soiled grout. Safe for use on glass, mirrors, and stainless steel without streaking. Easily dissolves mold, mildew and soap scum from shower walls.

Deodorizes while it cleans and leaves a fresh citrus scent. Removes garbage and smoke odors safely and effectively.

DIRECTIONS FOR USE:

For light duty cleaning, including glass:

Use 1/2 ounce Oxy-d per gallon of water. No rinse required.

For general cleaning, including floors and carpet extraction:

Use 1-2 ounces Oxy-d per gallon of water. Will not harm floor finish at this dilution. No rinse required. For carpets test an inconspicuous area for color-fastness. Do not use on wool rugs.

For carpet spotting and extraction pre-spray:

Use 1-2 ounces Oxy-d per gallon of water. Do not use on wool rugs.

For heavy soil, spray and wipe cleaning and routine tile and grout cleaning:

Use 5-6 ounces Oxy-d per gallon of water.

For extreme duty cleaning, including tile and grout renovation, heavy degreasing and odor elimination:

Use 10-12 ounces Oxy-d per gallon of water. Rinse required.

PACKAGING:

Available in 1 gallon jugs.

SPECIFICATIONS:

Color	orange
Odor.....	citrus
pH	4.0 - 5.0
Weight per gallon	8.56 lbs.
Non-volatile matter	13.4%

WARNING: Keep out of reach of children. Eye and skin irritant. Avoid contact with eyes, skin and clothing. Wash thoroughly after handling. May be harmful if swallowed. Do not mix with chlorine bleach or other cleaning products. Keep container closed when not in use. Do not reuse container.

FIRST AID: Eyes: Flush with plenty of water for at least 15 minutes. Get medical attention. Skin: Remove contaminated clothing. Rinse thoroughly with water. Get medical attention if irritation persists. Wash clothing before reuse. Ingestion: Drink 16 oz. of water and get medical attention. Do not induce vomiting. Never give water to an unconscious person.

Refer to the material safety data sheet (MSDS) for detailed safety, health and environmental information.
