WASH UP LIQUID HAND SOAP

Wash Up Liquid Hand Soap is based on an advanced principle of antibacterial hand cleaning and skin conditioning. It contains a powerful bacteriostat which forms an invisible coat over the skin and inhibits the germ life imbedded in the pores and hair follicles.

A refreshing washroom soap compounded from the purest coconut castile oil base, Wash Up is specially formulated with natural glycerin that acts as an emollient to relieve and prevent chapping on sensitive skin. Ideal for situations which call for constant handwashing.

DIRECTIONS FOR USE:

Wet the hands and arms with water. Apply Wash Up and massage well for several minutes, then rinse to carry away all dirt and dry hands thoroughly.

Refer to the Safety Data Sheet (SDS) for detailed safety, health and environmental information.

CAUTION:

Keep out of reach of children. Eye irritant. Acute exposure may cause eye irritation or skin irritation.

SPECIFICATIONS:

Color straw
Fragrance No fragrance added
Storage Stability 1 year unopened
pH 10-11
Specific Gravity 0.99-1.02
Boiling Point Ca 212° F
Volatile Organic Compound 0%
Solubility in Water Complete
Evaporation Rate Similar to Water

PACKAGING:

Available in 1 gallon containers,.

March 2020
