

PRODUCT CENTRAL 121 PRO-ZYME

Product Central 121 PRO-ZYME is a blended probiotic emulsion which attacks grease, fats, proteins and carbohydrates, breaking down uric acid molecules quickly while digesting the source of odors with no environmental impact. Liquefies and cleans organic waste, paper, grease, fat and other wastes from drains, pipes and grease traps. Restores normal biological activity to septic tanks and sewage treatment plants. Add to recreational vehicle and marine holding tanks, port a-toilets and outhouses to deodorize and aid in digestion. Also effective for odor control, carpet spotting and general hard surface cleaning.

SPECIFICATIONS		
Dilution ½-gallon cartridge	Hi-Flow	1:180
	Lo-Flow	1:7
Dilution 3 liter cartridge	1:256	
Yield ½-gallon cartridge	Hi-Flow	90 gallons
	Lo-Flow	16 quarts
Yield 3 liter cartridge	200 gallons	
pH as supplied	7.4-8.2	
Color	White	
Fragrance added	None	
Weight per gallon	8.50 lbs.	
Packaging	½ gallon and 3 liter	
Shelf Life	1 year unopened	

DIRECTIONS FOR USE:

Dispense automatically with all Product Central Express Dispensers.

Toilets & Urinals: Spray, mop or wipe onto surface. Agitate, if necessary. Reapply and allow surface to remain moist for at least 15 minutes. **Odor Neutralizer:** Pre-clean organic matter (vomit, feces, etc.) from soiled surfaces. Spray or mop around urinals, toilets, floors, walls or carpets where odors originate.

Bathtubs, Showers, Sinks: Add 4 oz. of dispensed product twice weekly to drains. Vary amount and frequency according to usage and size of drain. **Garbage Disposal:** Add 2 oz. of dispensed product weekly for digestion and deodorizing.

Laundry Pre-spotter: Apply to soiled areas prior to washing.

Carpets & Upholstery: Spray onto surface to be cleaned.

Agitation may be necessary to remove severe stains. For deep penetration of carpets and upholstery, apply with hypodermic type injector/applicator. (Test for color fastness prior to use.) Clean large areas with extraction machine. **Hard Surface Cleaning:** Spray and wipe surfaces as necessary. **Floor Cleaning:** Apply with mop, spray or high pressure washer. Mop/scrub daily. **Drains, Traps & Septic Tanks:** Initial treatment, add product to opening closest to trap prior to its longest non-use period. (Large traps may require additional amounts.) Pour directly into floor or sink drains, twice per week. For grease traps, pour into drain daily. Time application for when drains are least used.

Refer to the Safety Data Sheet (SDS) for detailed safety, health and environmental information.
